Co-Founder

## What drives us?

With more than a decade of experience in the education industry, we believe that there is much more digitization required in schools & colleges. So we're helping educational institutions in creating processes and systems that help them to grow better & stronger and to have complete control over their education campus.

# About

## Skolaro

Skolaro, is a multipurpose cloud-based ERP & LMS software for schools, colleges & higher institutions. This bundled solution has all the features that are needed to manage the entire administrative and management processes within an educational institution. It is a digital, automated and data driven solution which automates the entire campus operations, reduces operating cost and engages or saves more time by bringing management, professor, staff, parents and students under one roof.

# What we provide?

Features for every department
